

Florim

Design-led ceramic surfaces with transparent environmental reporting

Florim combines annual sustainability reporting with closed-loop production, renewable energy investment and independently recognised corporate responsibility.

100%

wastewater recycled

100%

raw production waste recovered

B CORP

certified benefit-led business

WHY THIS MATTERS FOR PROJECTS

- Florim reports 12.3 MWp of photovoltaic capacity across 127,000 m² of covered surfaces.
- Outdoor products in 20 mm thickness can contain more than 55% recycled material.
- EPD-certified lifecycle data and more than 20 international product certifications support specification work.

PROJECT EVIDENCE AND QUALIFICATION

- Annual Sustainability Statement published since 2008.
- ISO 14001 environmental and ISO 50001 energy-management systems.
- Confirm recycled content and declarations against the selected collection and format.

Important: Environmental performance, recycled content and certification coverage can vary by collection, format, finish, production site and declaration period. Obtain the current manufacturer documentation for the exact product before relying on a claim.
