WHY THIS MATTERS FOR PROJECTS

- Its sustainability programme includes measurable action on plastic, paper, community and climate.
- The group publishes sustainability or impact reporting and has developed a Climate Action Plan.

PROJECT EVIDENCE AND QUALIFICATION

- B Corp assesses company-wide social and environmental performance, accountability and transparency.
- It is not a product-level EPD or a substitute for collection-specific lifecycle data.
- Request the relevant declaration and recycled-content evidence for the chosen Sartoria range.

Important: Environmental performance, recycled content and certification coverage can vary by collection, format, finish, production site and declaration period. Obtain the current manufacturer documentation for the exact product before relying on a claim.
